

BROTHER TN-850 Dark Copy Shortcut in Copying Mode

April 14, 2019

1. Go to Home or Basic Functions, then to Copy.
2. Go to Options on the bottom left.
3. Scroll to Density.
4. Move the slider all the way to the right (+2).
5. Press OK.
6. Scroll to Contrast.
7. Move the slider all the way to the right (+2).
8. Press Options again.
9. Press OK on the next screen.
10. Go to Shortcuts in the top right corner.
11. Press OK.
12. Select one of the + buttons.
13. Erase the default text.
14. Type in "Dark Copy".
15. Press OK at the bottom.
16. Go back to Home or Basic Functions
17. To make a dark copy from now on, select Shortcuts at the bottom left first. You don't have to select Copy, as you have previously.
18. Select the "Dark Copy" button.
19. Press Start. The Density and Contrast setting will always be dark when you make a copy with the Dark Copy button.
20. Remember that the Shortcut selection of "Dark Copy" will default back to normal after 2 minutes of non-use. But the settings for "Dark Copy" will remain dark.
